ALAN RAMPONI

COPENHAGEN, DK · ALAN.RAMPONI@UNITN.IT

I am a Computer Science Ph.D. student who found his true passion in natural language processing. My research interests include unsupervised domain adaptation and deep learning methods for biomedical information extraction from scientific publications.

INFORMATION

ADDRESS
Ørestads Boulevard, 62
2300 – København, DK

CONTACTS
alan.ramponi@unitn.it
ramponi@cosbi.eu
aram@itu.dk

DATE OF BIRTH
August 15th, 1991

NATIONALITY
Italian

LANGUAGES

ITALIAN (native)
ENGLISH (professional)
SPANISH (elementary)

SIGNATURE

RELEVANT WORK EXPERIENCE

NLP@ITU, IT University of Copenhagen
Rued Langgaards Vej 7, 2300 · København, Denmark

2019, Sep – current · **Visiting Ph.D. student**
Domain adaptation methods for event extraction.

The Microsoft Research – University of Trento (COSBI)
Piazza Manifattura 1, 38068 · Rovereto (TN), Italy

2017, Nov – current · **Ph.D. student in Computer Science**
Biomedical knowledge extraction from scientific literature. Application to real pharmaceutical projects (see below).

2017, Mar – 2017, Oct · **NLP intern**
Multipurpose text mining pipeline for knowledge extraction.

Dept. of Computer Science, University of Trento
Via Sommarive 5, 38123 · Trento, Italy

2016, Oct – 2019, Apr · **Teaching assistant**
Classes: Programming I (C++), Foundations of Programming (C), Foundations of Computer Science (Python).

INDUSTRIAL PROJECTS AND PUBLICATIONS

ASTHMA KNOWLEDGE GRAPH FROM LITERATURE ★
Knowledge extraction of different immune-related disease aspects from literature and knowledge graph building.

TEXT MINING OF RARE DISEASES FOR QSP MODELING ★
Extraction of players to include into a mathematical model to the development of new treatments for 3 lysosomal storage disorders.

★ *A manuscript is currently being drafted*

EDUCATION

M.SC. IN COMPUTER SCIENCE (110L/110 – magna cum laude)
University of Trento · Italy · (October 2017)
